

Converting Fractions into Decimals

1 Draw lines to match the fractions with their **equivalent** decimals.

$$\frac{1}{10}$$

0.25

$$\frac{1}{2}$$

0.1

$$\frac{1}{4}$$

0.2

$$\frac{1}{5}$$

0.5

Convert the following fractions into **decimals**.

2 $\frac{31}{50} = \frac{62}{100} = \square$

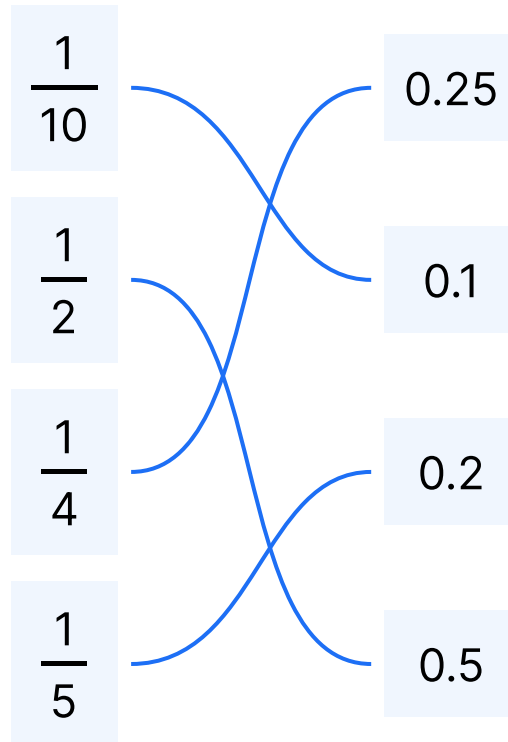

3 $\frac{23}{50} = \frac{\square}{100} = \square$

4 $\frac{9}{25} = \frac{\square}{\square} = \square$

Converting Fractions into Decimals **Answers**

- 1 Draw lines to match the fractions with their **equivalent** decimals.

Convert the following fractions into **decimals**.

2 $\frac{31}{50} = \frac{62}{100} = 0.62$

3 $\frac{23}{50} = \frac{46}{100} = 0.46$

4 $\frac{9}{25} = \frac{36}{100} = 0.36$
